

EDI 846 INVENTORY FAQs

What kind of reports can I get?

EDI 846 will be a snapshot of BBY Inventory at time of transmission. Two types of Inventory snapshots are available:

Intraday	<ul style="list-style-type: none"> • Available to VMI (Vendor Managed Inventory) vendors only • Stock on Hand data only • Transmission times (PST): 9:00am, 1:00pm & 4:00pm • Transmission days: Tuesday & Friday
Daily	<ul style="list-style-type: none"> • End of day or early morning next day • Includes all inventory buckets • Vendor can choose the days of the week they wish to receive the EDI 846

What information is contained in the reports?

Available Stock on Hand (Qualifier = 33)	Current stock on hand in warehouse and store locations. To calculate Gross Stock on Hand = Stock on Hand + Defective RTV + FF RTV
FF RTV- Factory Fresh Return to Vendor (Qualifier = 76)	Quantity to be returned to vendor.
Stock In Transit (Qualifier = IQ)	Quantity in transit from BBY location to BBY location. Reported under destination location.
On Order On Order (Qualifier = 63)	Quantity on approved order, not yet received by DC/store location. Includes stock in-transit from supplier.
Defective RTV - Unavailable Stock (Qualifier = 20)	Current stock on hand in DC and store locations that is unavailable for sale.
Locations Included	Express Kiosk Store, Mobile Only Store, Mall Kiosk Store, Regular Store, Liquidation Store and Small Format Store. Warehouses included: Factory Fresh Distribution Centre, Product Return Centre and Returns Depots

What are the Data Attributes?

START_DATE	VPN	IN_TRANSIT
END_DATE	LOC_TYPE ('54' if warehouse, 'ZZ' if store)	FF_RTV
SKU	LOCATION	DEF_RTV
UPC	ON_HAND*	ON_ORDER

*Intraday to include ON_HAND data only

Where does the data come from?

Inventory quantities are extracted from Best Buy Canada's **Retek** system.

Who can I contact regarding EDI?

The Best Buy Canada EDI Team at edi@bestbuycanada.ca.

Anything else I should know?

- To receive EDI 846, you must be exchanging EDI PO's (EDI 850) and EDI Invoices (EDI 810) with Best Buy Canada **in production**.
- EDI 846 is **not** in a report format; it is a data file. You will need to format the data into a report in order to use it.
- Historical inventory data **cannot** be sent via EDI.
- EDI 846 is **informational only** and may not be used as the system of record in reconciling price protection inventory or consignment sales.
- Testing is not required to receive EDI 846. Please review the Best Buy EDI 846 mapping guide prior to implementation, available online at: partners.bestbuy.com.
- **All vendors interested in receiving EDI 846 are required to sign the EDI 846 Reporting Request Form available online at partners.bestbuy.com.**
